

HAWA CHICKEN

Founded in 1957, Hawa Chicken is the leading producer of poultry products in Lebanon. In 2015 it expanded its production capacity by establishing a new slaughterhouse to further process poultry products in Anfeh, North Lebanon. The investment project consists of an expansion of the current factory by 61,000 sqm. The project includes a slaughterhouse, a factory for rendering residues, and another factory for manufacturing dry food for dogs. The slaughterhouse is expected to double production capacity to 120,000 chickens per day. Production of dry food for dogs will reach ten tons per day and they plan to export these products to Arab and international markets.

It applied to IDAL in 2015 and started operations in 2016.

The new facilities will stretch over 36,000 sqm of built-up area.
