THE ISME PROGRAMME BY KAFALAT

Started in 2013, the iSME Programme is a USD 30 million initiative funded by the Government of Lebanon and the World Bank. The Program aims to encourage the equity investment market in order to increase early stage investment finance for financially viable, new, and existing innovative firms in all sectors.

The Program Offers:

- Startup Concept Development Grants (CDG) of up to \$15,000 for entrepreneurs offering innovative ideas
- Equity co-investment in seed and growth-stage firms alongside another institutional investor as VC funds, holding companies, formal business angel groups and investment banks. To qualify for the equity investment, the entrepreneur needs a commitment from an institutional investor to invest in the firm.

To apply to the iSME Programme you can contact Bassel Aoun, Project Manager, at Bassel@kafalat.com.lb, or apply **online**.
